📌 **What is Azure DevOps?**

🔷 Azure DevOps is a complete DevOps platform provided by Microsoft.

🔄 Helps teams plan, build, test & deploy software in one place.

🧰 Provides tools like Repos, Boards, Pipelines, Artifacts, Test Plans.

☁️ Works completely on cloud, accessible from anywhere.

🤝 Helps developers collaborate smoothly using Git repositories.

📌 Why Azure DevOps is Important?

# </> **TechZeen**

⚡ Fast Development

🔒 Secure & Reliable

🔁 CI/CD Pipelines

📂 Version Control

📊 Project Tracking (Boards)

🔗 Integration with Azure Cloud

🌍 Industry Standard
